FAO/IAEA WORKSHOP

Food safety – Challenges for developing countries

Chair:

Andrew Cannavan

Joint FAO/IAEA Division of Nuclear Techniques in Food and Agriculture, International Atomic Energy Agency (IAEA), Austria

The workshop will provide information and guidance on research and capacity building in the field of food control systems. It will focus especially on the challenges facing developing country analytical laboratories in implementing systems and methods to:

- control chemical contaminants in food,
- underpin food traceability systems,
- verify food authenticity.

The programme will include invited lectures and an expert panel discussion session, and will foster opportunities for developing country scientists to network and develop working collaborations with RAFA participants.
